Gaddum ... Carers

Young Carers...

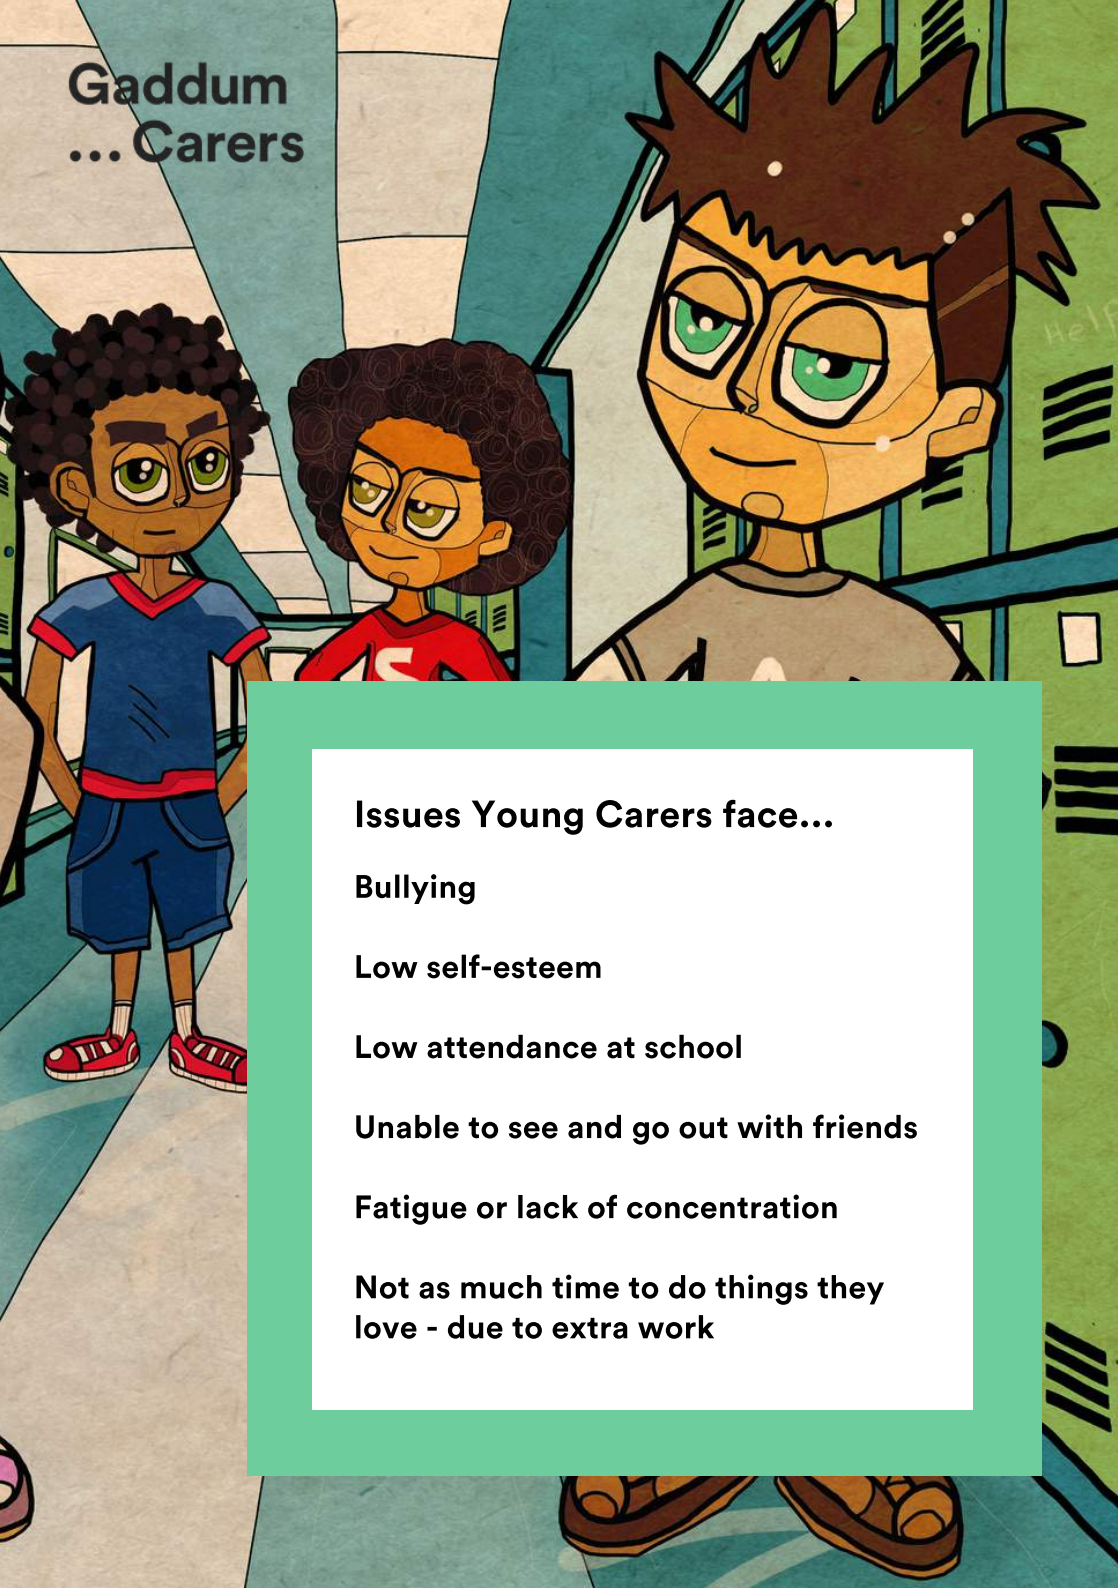

Young Carers are those aged 5-16 and Young Adult Carers are those aged 17-24, who provide significant help and support to a member of their family or friend who relies on their support.

This can be due to illness, addiction or mental health issues. The support Young Carers give others is usually provided by an adult and at times can be stressful.

We support all Young Carers in Salford aged 5 – 24 years old.

Issues Young Carers face...

Bullying

Low self-esteem

Low attendance at school

Unable to see and go out with friends

Fatigue or lack of concentration

Not as much time to do things they love - due to extra work

You may notice...

The young person may not be engaging at school, not focused or has difficulty attending activities.

They may be falling behind with their school/college work.

The young person does not seem to spend time with school friends or may be isolated.

Gaddum ... Carers

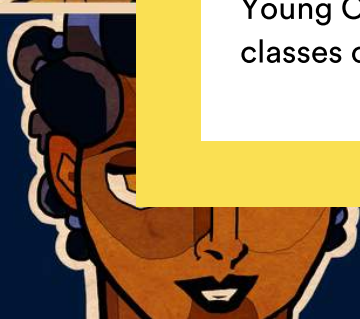

You may notice...

The young person may appear to have low self-esteem or there may be mental health concerns.

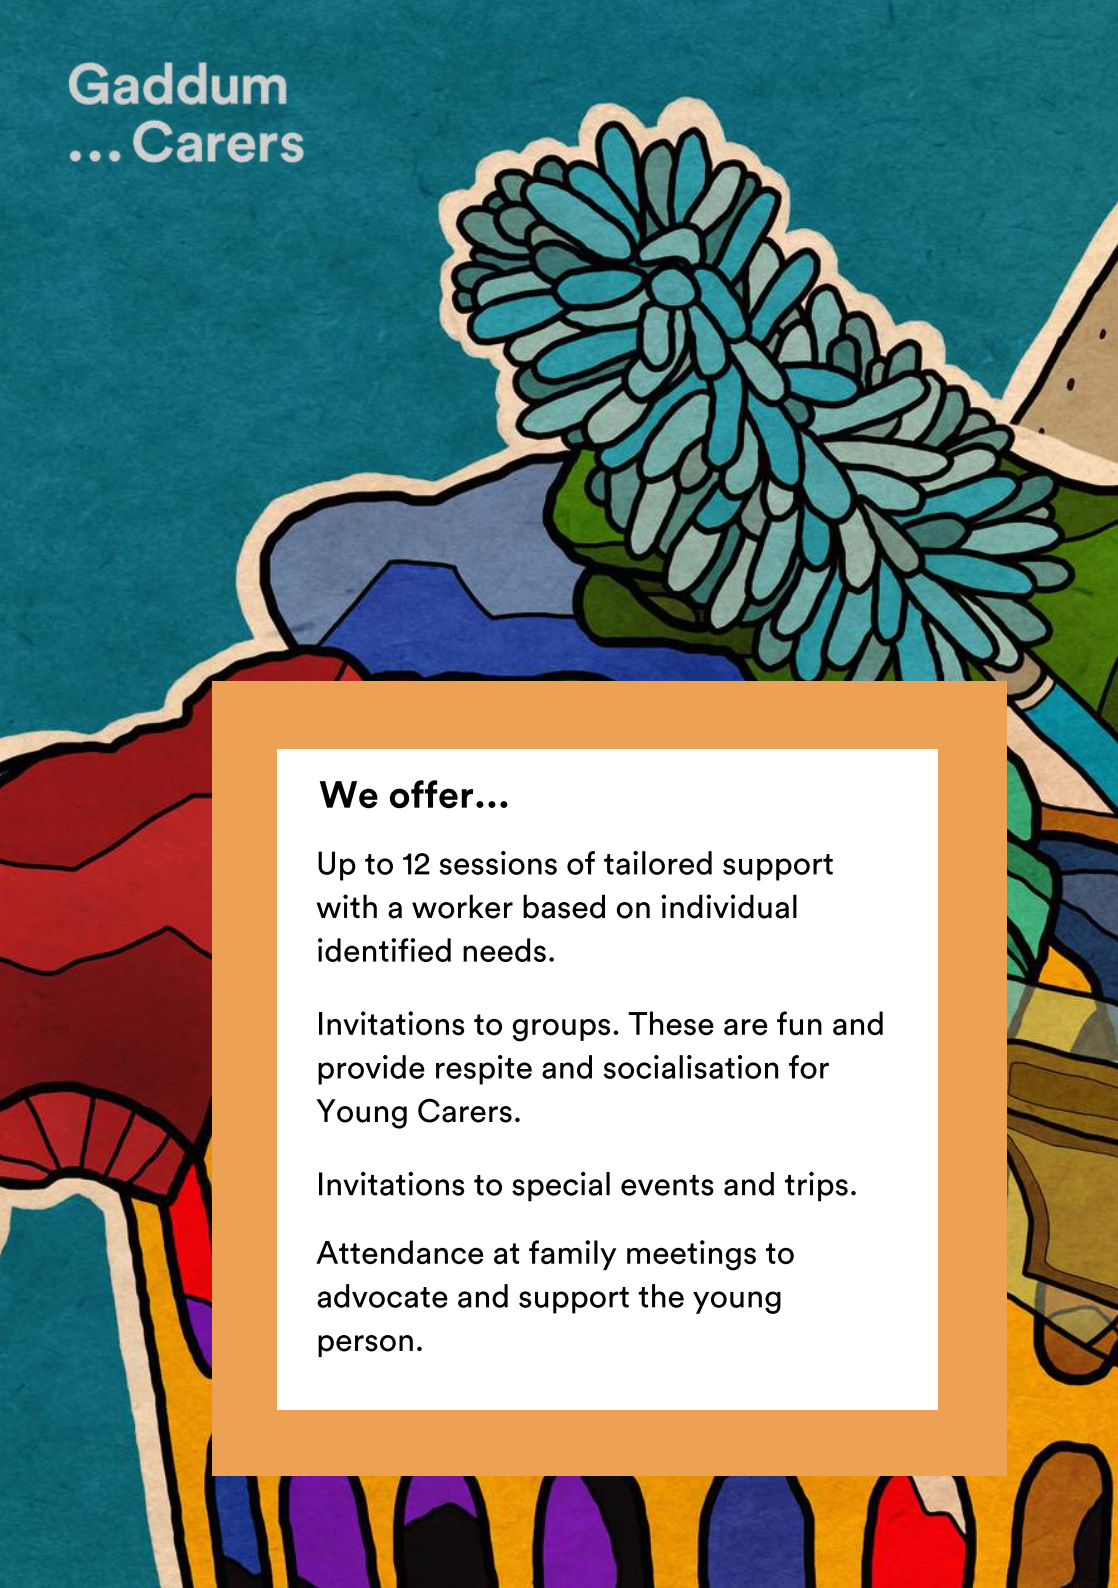

You may notice the young person is being bullied or hear reports of bullying.

Some Young Carers have little time for self care.

Young Carers are often late for school, classes or miss whole school days.

Gaddum ... Carers

We offer...

Up to 12 sessions of tailored support with a worker based on individual identified needs.

Invitations to groups. These are fun and provide respite and socialisation for Young Carers.

Invitations to special events and trips.

Attendance at family meetings to advocate and support the young person.

Gaddum ... Carers

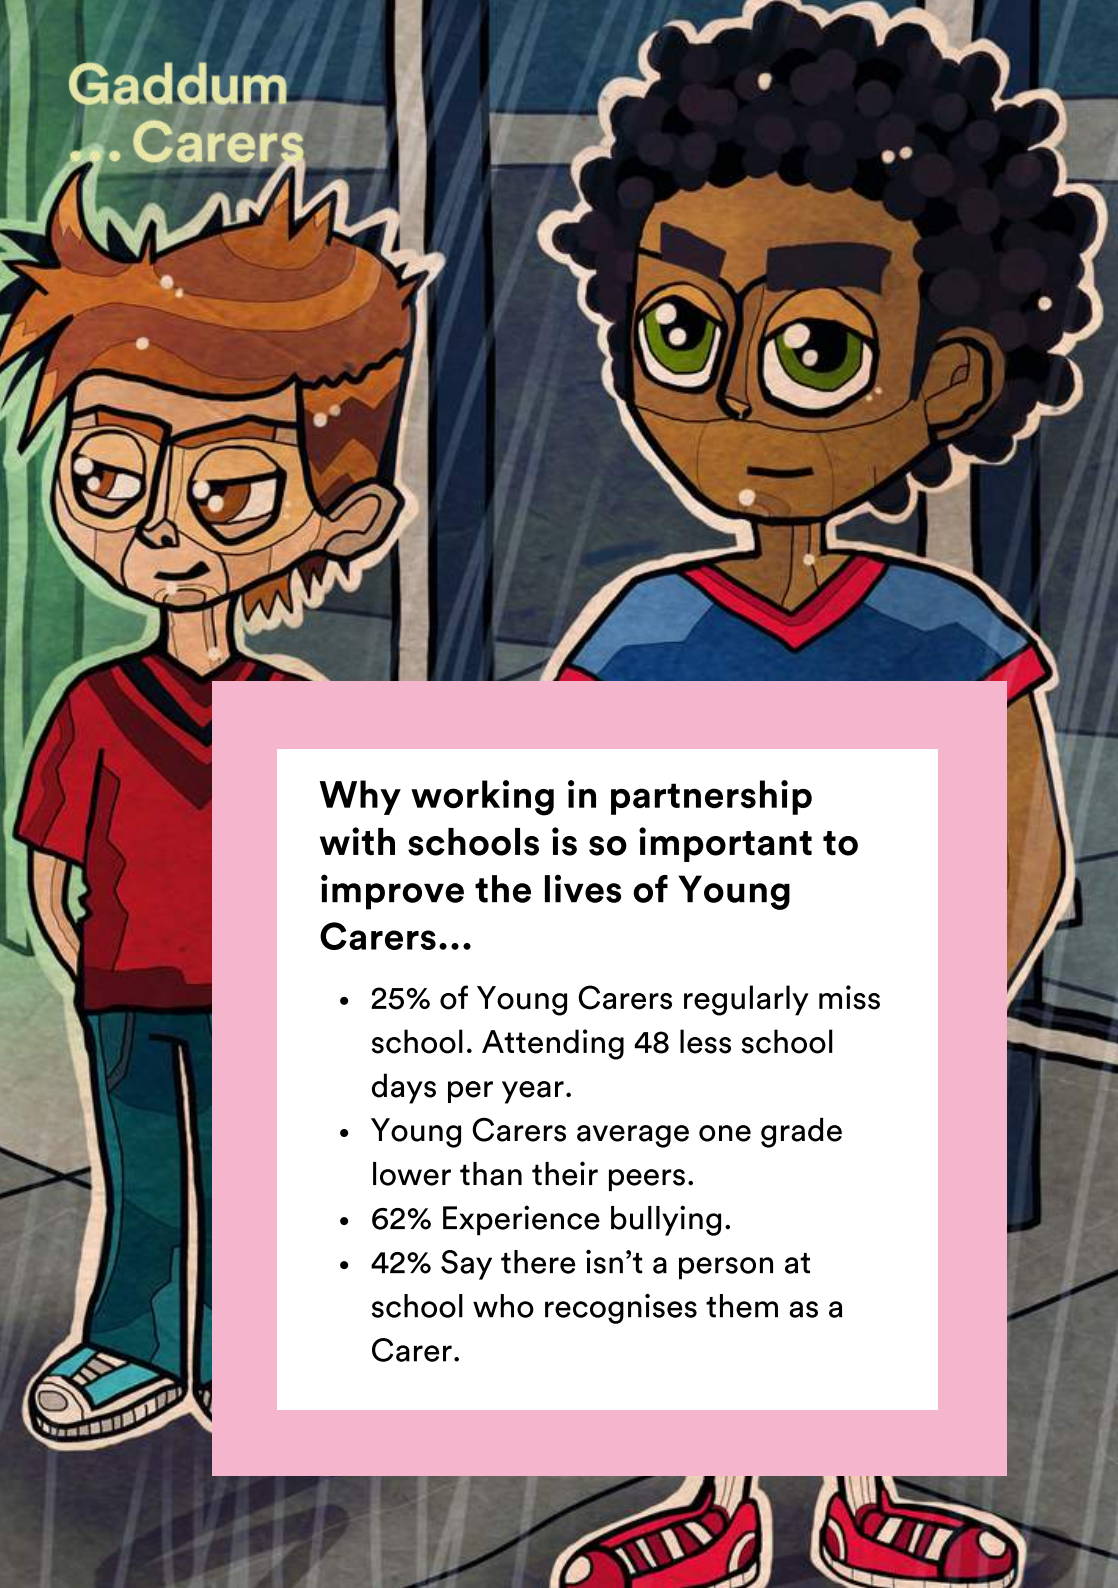

Free training for professionals...

Training to professionals on how to better identify/ support young carers as they grow up.

School assemblies raising awareness of young carers.

Our outreach and development workers are community based, engaging with people, organisations and seeking out new partnerships & opportunities for Young Carers.
